

EC 120 B ELECTRONIC FLIGHT BAG HOLDER

Description

Swiss Helicopter Engineering offers Electronic Flight Bag (EFB) holders which can be installed at two different locations in the cockpit. The holder allows an easy installation and ensure absence of vibrations of the EFB device.

Modification details

- ✓ Can be installed on the left side of the instrument panel or on the side of the instrument panel both on the left and right and sides
- ✓ Up to three EFB holders can be installed at the same time
- ✓ Side installations can be folded if needed to allow an unobstructed view to the pilot if needed during take-off and landing
- ✓ Flexible locations on the instrument panel to ease compatibility with existing avionic customisation
- ✓ Holders for iPad Mini and iPad Pro EFB devices. Holder for other EFB devices can be added on request
- ✓ Engineered from pilot experience

Approvals

Approval type	Reference number	Authority	Aircraft approved
Minor Change	MCA-120-000001	EASA DOA - 21J.730	EC 120 B

Approval recognised by FAA, TCCA and ANAC via bilateral agreement. Approval can be validated to other civil aviation authority and extended to other aircraft on request.
