

Bell 429 CHART HOLDER MODIFICATION

Description

Swiss Helicopter Engineering has developed and certified a modification of the cockpit chart holders in order to use it as Electronic Flight Bag (EFB) holders. The modification installs a dedicated holder which allows an easy installation of the EFB device.

With the modification, the chart holder can still be folded to maximize external view for the flight crew.

Modification details

- ✓ Can be installed on the left and / or right side of the instrument panel
- ✓ Holders for iPad Mini (up to generation 6). Holder for other EFB device can be added on request
- ✓ Engineered from pilot experience

Approvals

Approval type	Reference number	Authority	Aircraft approved
Minor Change	MCA-429-000001	EASA	Bell 429

Approval recognised by FAA, TCCA and ANAC via bilateral agreement. Approval can be validated to other civil aviation authority and extended to other aircraft on request.
